

# ARMOURVENT® MULTI

extends  
your  
roofs life

Without Armourvent® Multi

With Armourvent® Multi

**IKO ARMOURVENT® MULTI** is a shingle-over vent on roll, which provides a balanced ventilation system: 50% soffit air intake and 50% outlet at ridge vent: an effective performance which is used under IKO Shingles on multiple roof slopes. One single product provides all high performance ventilation requirements!

100% balanced  
ventilation system

ENJOY A 100% CONTINUOUS **VENTILATION SYSTEM** ON YOUR ROOF

You want a **nice and smooth-looking** roof?  
 You want a **healthy** house?  
 You want a safe roof in **all weather conditions**?  
 You want all this and to **save money**?

### Simply beautiful

IKO ARMOURVENT® MULTI ventilation system provides you a fabulous roof without visible appliances. The unique design consists of a thin but ultra-strong profile ensuring a smooth, straight and virtually invisible roofline.

### Make sure your home is well protected

IKO ARMOURVENT® MULTI is rigorously tested in extreme weather conditions to ensure no moisture infiltration. The high density white membrane keeps out water and other unwanted objects or vermin.

### Save money in the long term

IKO ARMOURVENT® MULTI you can save money!  
 The ventilation system protects your roof from the problems of condensation and rotting.

Better insulation = lower energy costs  
 Better insulation = better health
